

FWSU is excited to announce our new line of foods!

"We are really looking forward to working with Genuine and are excited for what they can bring to the kids in our schools" - Randy Morton, Business Manager at FWSU

While our partnership with The Abbey Group was exemplary and we are grateful to have shared many years with them, we are 'genuinely' happy to share what's new to come. Genuine Food's approach is to prepare fresh and healthy meals for students, while sourcing the best ingredients possible. With impressive food quality, extensive variety and great reviews overall, we look forward to this new partnership.

Q & A

Q: Will balances carry forward?

A: Yes, money that families paid were held and carried into the new program.

Q: Why the change in vendor?

A: While the Abbey Group was wonderful for our schools, we met the end of our contract and are required to go out to bid for a food service management company. With much evaluation through the usage of a rubric completed by a team of four administrators, we knew this would be the right choice and align well with our children.

"We believe food is a tool for helping individuals be their best selves and a means for building community." - Genuine Foods
